

Reporting period: 13 to 19 January 2008 (Week 3)

**Weekly highlights**

**Human cases of avian influenza infection**

- On 15 January 2008, WHO reported that the Ministry of Health of Indonesia announced a new case of human infection of H5N1 avian influenza. A 32-year-old female from Tangerang District, Banten Province developed symptoms on 3 January 2008, was hospitalized on 9 January 2008 and died on 10 January. Investigations indicate the case had a history of close contact with birds and poultry in the week prior to her onset of symptoms.
- On 18 January 2008, WHO reported that the Ministry of Health of Indonesia has announced the death of a previously confirmed case of H5N1 infection. The 16-year-old female from West Java Province died on 15 January 2008.

**Animal cases of avian influenza infection**

- Egypt, India, Iran and Israel reported outbreaks of highly pathogenic avian influenza in poultry. **(OIE)**

## Places with human H5N1 infection and avian influenza in birds

Country	Human H5N1 infection*				Avian influenza in birds**				
	No. of case(s) during the reporting period	Date of last reported case(s)	Place(s) of last reported case(s)	Cumulative no. of cases Since Jan 2004 (No. of deaths)	No. of outbreak(s) during the reporting period (Subtype)	Date of last reported case(s)	Place(s)	Total no. affected (Destroyed)	Type of birds affected
<b>Azerbaijan</b>	0	11/04/06	Salyan	8 (5)	0 (H5N1)	23/03/06	Agdam	1(1)	Wild bird

Confirmed human avian influenza cases other than H5N1 since 2007

*(as of 19 January 2008)*

Subtype	Country / Region	Date of report	Source of report	Gender / Age	Presentation	Condition
H7N2	United Kingdom	26 May 07	WHO, Regional Office for Europe	4 persons (gender/age unspecified)	Conjunctivitis and flu-like illness	N/A
H9N2	Hong Kong	20 Mar 07	Department of Health	F/9 months	Upper respiratory symptoms	Recovered

(A) Human infection of avian influenza (H5N1) since Jan 2004 (as of 19 January 2008) and (B) Avian influenza in birds reported from 19 December 2007 to 19 January 2008.

*Avian Influenza Report* is a weekly report produced by Respiratory Disease Office of Centre for Health Protection during the alert level of Government's Preparedness Plan for Influenza Pandemic in Hong Kong. This report aims to highlight any important international development of avian influenza preparedness and control and to monitor global avian influenza activity in human and birds.
