

Reporting period: 24 February to 1 March 2008 (Week 9)

Weekly highlights

Human cases of avian influenza infection

- On 28 February 2008, WHO reported that the Ministry of Health and Population of Egypt announced a new case of human H5N1 avian influenza infection. The case is a 4-year-old female from El-Edwa district, Menia governorate. She developed symptoms on 21 February and was hospitalized on 24 February. She is receiving treatment and is in a stable condition. Investigations into the source of her infection indicate exposure to sick poultry in the week prior to onset of symptoms.
- On 26 February 2008, WHO reported that the Ministry of Health in Viet Nam confirmed a new case of human infection of H5N1 avian influenza. The case is a 23-year-old female from Cam Khe district, Phu Tho province. She developed symptoms on 14 February was hospitalized on 19 February and died on 25 February. The case had contact with sick and dead poultry prior to her illness.
- On 26 February 2008, WHO reported that the Ministry of Health in China has reported a new case of human infection with the H5N1 avian influenza virus. The case is a 44-year-old female from Haifeng county, Shanwei city, Guangdong province. She developed symptoms on 16 February was hospitalized on 22 February and died on 25 February. She had contact with sick and dead poultry prior to her illness. All contacts have been placed under medical observation and all remain healthy to date.

Animal cases of avian influenza infection

- China, Pakistan and Turkey reported outbreaks of highly pathogenic avian influenza in poultry. **(OIE)**

Places with human H5N1 infection and avian influenza in birds

Country	Human H5N1 infection*				Avian influenza in birds**				
	No. of case(s) during the reporting period	Date of last reported case(s)	Place(s) of last reported case(s)	Cumulative no. of cases Since Jan 2004 (No. of deaths)	No. of outbreak(s) during the reporting period (Subtype)	Date of last reported case(s)	Place(s)	Total no. affected (Destroyed)	Type of birds affected
Azerbaijan	0	11/04/06	Salyan	8 (5)	0 (H5N1)	23/03/06	Agdam	1(1)	Wild bird
Cambodia	0	10/04/07	Kampong Cham	7 (7)	0 (H5N1)	12/04/07	Cham	302 (784)	Poultry
