1 November 2011

Dear Doctors,

Promotional Materials on Safe Use of Antibiotics

Antimicrobial resistance is an enormous public health challenge of global concerns. Safe use of antibiotics is one of the key components to combat this problem. A worldwide campaign to raise global awareness on antimicrobial resistance was launched by the World Health Organization (WHO) on World Health Day 2011.

CHP has launched our campaign “Safe Use of Antibiotics” in March this year. Foreseeing the usual increase in medical consultations during winter influenza season, we would like to appeal for your support in promoting safe use of antibiotics. Grateful if you could kindly display the enclosed pamphlets and posters in eye-catching areas in your workplace. We hope these materials can facilitate communication with patients on this issue in your daily practice. You are welcome to obtain additional copies of the promotional materials by using the enclosed order form.

For further details, please visit the website of Centre for Health Protection at http://www.chp.gov.hk/en/view_content/22878.html.

Yours sincerely,

(Dr WONG Tin-yau, Andrew)
