Starting from 5 August 2024, PCV15 will replace the existing PCV13 under the Government Vaccination Programme (GVP) following the latest recommendation from the Scientific Committee on Vaccine Preventable Diseases. Currently subsidised PCV13 will continue to be provided to elderly aged 65 or above with high risk conditions under the Vaccination Subsidy Scheme (VSS). However, VSS doctors are recommended to follow SCVPD's recommendation and replace PCV13 with PCV15 as far as practicable.
- 不論上述合資格組別，按照醫生臨床決定，醫院管理局診所/醫院或衛生署診所可向現時有臨床需要的患者提供免費肺炎球菌疫苗
