

# Busting Myths about COVID-19 Vaccines

Series

The death rate is more than usual  
after vaccinated with BioNTech  
COVID-19 vaccine?

The statement issued by the World Health Organization Global Advisory Committee on Vaccine Safety that after reviewing the deaths reported in Europe and in the WHO global database, it was considered that the reports were in line with the expected, all-cause mortality rates and causes of death in the sub-population of frail, elderly individuals. There were no unexpected or untoward increase in mortality rate after frail, elderly individuals were vaccinated with BioNTech COVID-19 vaccine, and **the administration of the vaccine was still considered to be beneficial for the elderly.**
