

兒童及青少年

可獲免費/資助接種季節性流感疫苗

Children and adolescents

can receive free/subsidised seasonal influenza vaccination

接種當日年齡介乎6個月至未滿18歲；或18歲或以上就讀於香港中學的學生，可透過學校外展疫苗接種計劃或參與疫苗資助計劃的私家醫生接種流感疫苗。

Persons aged between 6 months and under 18 years;
or aged 18 years or above studying at secondary schools in Hong Kong on the vaccination day,
can receive influenza vaccination through **School Outreach Vaccination Programme**
or **private doctors enrolled in the Vaccination Subsidy Scheme**.

6個月至未滿24個月的兒童

可到衛生署母嬰健康院免費接種流感疫苗。

Children aged 6 months to under 24 months can receive
free influenza vaccination at the **Maternal and Child Health Centres**
of the Department of Health.

請儘早接種流感疫苗

Please receive influenza vaccination early

在知情同意下，流感疫苗可與新冠疫苗同時接種。接種流感疫苗和新冠疫苗可減少住院的可能性及留醫的時間。

Influenza vaccine can be co-administered with COVID-19 vaccine under informed consent.

Receiving influenza vaccination and COVID-19 vaccination may reduce the likelihood of hospitalisation and length of stay.

父母為子女接種疫苗時，可同時為子女登記醫健通，以從小建立個人終身電子健康紀錄！

Parents can register their children with eHealth when receiving vaccination to build a lifelong electronic health record for their children!
