

Latest situation of COVID-19 (as of 23 July 2022)

The Centre for Health Protection (CHP) of the Department of Health (DH) today (23 July) announced the latest epidemic situation of COVID-19. As of 0.00am, 23 July 2022, the CHP was investigating 4034 additional locally acquired cases tested positive for the SARS-CoV-2 virus, including 1387 cases tested positive by nucleic acid tests and verified 2647 cases tested positive by rapid antigen tests (RATs) in the past 24 hours^{Note 1}. Separately, 231 additional imported cases were reported, including 195 cases tested positive by nucleic acid tests and 36 cases tested positive by RATs. So far, Hong Kong has recorded a total of 805840 and 511903 cases tested positive by nucleic acid tests and RATs respectively for the SARS-CoV-2 virus.

Since the 5th wave (31 December 2021), 793209 cases and 511903 cases were tested positive by nucleic acid tests and rapid antigen tests respectively.

In the recent 7-day period from 17 to 23 July 2022, an average of 1575.6 cases by nucleic acid tests were reported per day, as compared with 1474.7 cases per day reported in the previous 7-day period from 10 to 16 July 2022 (Figure 1(i)).

Figure 1(i): Daily number and 7-day moving average of cases tested positive for SARS-CoV-2 virus by nucleic acid tests in 2022^{Note 2}

Note 1:

Starting from 7 June 2022, only cases reported via the "Declaration System for individuals tested positive for COVID-19 using Rapid Antigen Test" which had been verified with positive nucleic acid test results will be announced. These include RAT positive cases reported in the past few days.

Note 2:

- Re-positive cases are excluded in Figure 1(i).
- As announced by the Government on 15 February 2022 (https://www.news.gov.hk/eng/2022/02/20220215/20220215_172336_940.html?type=category&name=covid19&title=) and 25 February 2022 (<https://www.info.gov.hk/gia/general/202202/25/P2022022500816.htm>), positive cases detected by the Hospital Authority and testing contractors are now directly deemed as confirmed cases.
