

18至49歲有長期健康問題的人士及 50歲或以上人士 可獲免費/資助接種 季節性流感疫苗

Persons aged **18 to 49** with chronic medical problems and
50 years or above
can receive free/subsidised **seasonal influenza vaccination**

「疫苗可預防疾病科學委員會」建議
有長期健康問題的人士，50歲或以上的人士
為**優先接種群組**，因為他們因流感而出現併發症、
入院留醫和死亡的風險較高。

The Scientific Committee on Vaccine Preventable Diseases
recommends persons with chronic medical problems,
50 years or above as the **priority groups** because of
their higher risk of complications, excess
hospital admissions and deaths from influenza.

請儘早接種

Please get the jab **early**

在知情同意下，流感疫苗可與新冠疫苗同時接種。接種流感疫苗和新冠疫苗可減少住院的可能性及留醫的時間。
Influenza vaccine can be co-administered with COVID-19 vaccine under informed consent. Receiving influenza vaccination and
COVID-19 vaccination may reduce the likelihood of hospitalisation and length of stay.

18歲或以上的接種者必須登記醫健通
Recipients aged 18 or above must register for eHealth
