

豬鏈球菌可經由皮膚的傷口進入人體，引起嚴重疾病。
Streptococcus suis can enter the human body through wounds on the skin and cause serious illnesses.

預防感染
To prevent the infection

- 避免接觸豬隻；否則在接觸後，應儘快清潔雙手
Avoid contact with pigs; otherwise, wash hands as soon as possible after contact
- 處理豬隻或生豬肉時，應佩戴手套和慎防損傷
Wear gloves when handling pigs or raw pork, and avoid injury
- 用防水敷料妥善覆蓋傷口
Cover wounds properly with waterproof adhesive dressings
- 分開處理和擺放生豬肉和熟食
Raw pork and cooked food should be handled and kept separately
- 豬肉要徹底煮熟方可進食
Pork should be cooked thoroughly before consumption
